

Two Senior Kitties are Desperate for a Loving Home. Owner passed away, husband works away from home and can't give them the attention they deserve.

Santo is all black with beautiful green eyes, he's very affectionate, loves to snuggle and can't stop purring. He's a real character, when anyone comes to the house he greets them at the door. He really enjoys playing with the water in the bathroom sink if you turn on the water to lazy stream for him. Santo is 15 years old but still loves to play with toys and his friend, Rebecca. She's a lovely tabby that likes cuddle close with you. She's 13 but you'd never think so. She

keeps Santo young and likes to play tag with him. She's very shy at first but it won't take long before she's right at home.

My wife volunteered at the MEOW foundation for many years. She loved her cats and adopted Rebecca when she was two. Santo was 14 when my wife fostered him but that arrangement didn't last long until she adopted him too. During the last months of Terry's life she was very concerned for her kitties because my job keeps me away from home. I promised her I'd find them a good home and I hope that someone can help fulfill my promise. Please **contact Doug** at **403-660-778** or email doug.murf@gmail.com
